

## First Grade Summer Reading Chart

If your child is entering first grade in the fall I would like to encourage you to continue reading with them over the summer. Attached is a list of fun books that you can find in your public library to get you started or you may choose your own books. Every time you read to or with your child for approximately 15 minutes have them color in a picture above. You can make more copies if your family is a reading family. Return this to school in the fall and receive a reward.

Have a great reading summer!  
Mrs. Sheryl Wright
